Information regarding mandatory implementation of WISE system for SPED records.

- In an effort to eliminate the entry of erroneous information on Special Education (SPED) forms that results in cost factor miscalculations which adversely impact school budgets and district compliance rates, schools will be required to use the WISE online system to enter SPED records and data.
 - Attached is a memorandum that provides guidelines regarding use of the WISE system. The memo also includes training information that will be helpful to administrators, SPED teachers and other SPED service providers tasked with utilizing the WISE system when creating and/or updating student records.
 - For more information regarding the WISE system, please contact Ms. Carmen Molinaris at 305-274-3501.
