The ESE Services screen (PF17) has been modified to allow the entry of IDEA Educational Environment codes for students of all ages and grade levels. New codes have also been added for identifying the IDEA Educational Environment.

-
- Previously, the entry of the IDEA Educational Environment code was allowed for students that were less than 6 year old and students in the Juvenile Justice (DJJ).
 - The following new codes have been added:
 - C - Correctional Facility
 - D - Public Separate Facility
 - E - Private Separate Facility
 - F - Public Residential Facility
 - G - Private Residential Facility
 - H - Home/Hospital
 - The following Code has been modified:
 - P - Private School/Public Service - changed to remove DJJ Only reference
 - The "Z" code (Not Applicable) - This code applies only to students who are 0-2 years of age.
 - **No** IDEA code is required for students with the Primary Exceptionality Code "L" (Gifted). With the initial implementation of these changes, schools may have been prompted to enter a "Z". This is no longer required and if a Z was entered, no action is required.
 - The ISIS Help Menu has been modified to include the new codes and reflect the change to the "P" code.
